Legally Download Movies, Music, and TV Shows

With so many options out there for accessing digital entertainment, it can be confusing to determine what's legal and what's not. However, it's important to be informed so you stay within legal parameters and don't engage in copyright infringement. As a start, review these guidelines:

- Watch for titles that are "too new to be true." Movies that have yet to be released in theaters, or which are still out in theaters, are not legally available online.
- Trust your eyes and ears. In many cases, the quality of illegal copies is inferior, with poor sound and can appear blurry or shaky.
- Be cautious when websites make offers that are "too good to be true." Be wary of "free" content when searching for and purchasing downloads from unfamiliar sites; they typically indicate pirated product. Look out for terms like "Unlimited Movie Downloads," "100% legal," and "Millions of Files Shared."
